History. Following the Munn and Dunning reports published in 1977, the Standard Grade replaced the old O-Grade qualification, and was phased in from then onwards.. Standard Grade courses were taken over a student's third and fourth year in secondary education. Exams were taken at the end of the 4th Year (around May), with preliminary examinations taken several months earlier in November.

Rail transport in Japan is a major means of passenger transport, especially for mass and high-speed travel between major cities and for commuter transport in urban areas. It is used relatively little for freight transport, accounting for just 0.84% of goods movement. The privatised network is highly efficient, requiring few

subsidies and running extremely punctually.
